American Welding Society

Subject Index

Technical Papers, Items and Reports

Aircraft, Strength of Welded Joints in Tubular Members for—H. L. Whittemore and W. C. Brueggeman, Sept., pp. 107-132.
Aircraft Welders, Training Course for—R. W. Boggs and S. C. Clark, June pp. 62-76.
Aluminum, Arc Welding of—W. M. Dunlap, Oct., pp. 8-16. Discussion, Dec. pp. 43-48.
American Bureau of Welding—Aims, Activities, Committees, Membership, By Laws, Aug.
American Welding Society—Aims, Activities, Committees, Membership, By Laws, Aug.
Arc, Calorimetric Study of—P. P. Alexander, Feb., pp., 25-32.
Arc—Cathode Energy of the Iron Arc—G. E. Doan, March, pp. 11-14.
Arc—Metal Transference In—A. W. Slocum, March, pp. 73-74.
Arc, Studies of the Iron—C. A. Stay, E. S. Phelps, R. B. George, Nov., pp 27-31.
Arc Welding Machines—Results of Research and Theory—A. F. Davis, Jan. pp. 62-64.
Boiler Welding—Fritz Hofmann, Jan., pp. 7-17.
Boiler Welding— Proposed Specifications for Fusion Welding of Drums or Shells of Power Boilers—March, pp. 57-61. Discussion, July, pp. 15-41.
Bridge Welded on Australian Railway—Jan., pp. 16-17.
Bridge Welding—Strengthening Structures and Bridges by Welding—A. G. Leake, Feb., pp. 18-25.
Bridge Welding—The First All-Welded Bridge in Europe—S. Bryla, May, pp 71-75.
Bronze Welding—De W. Endicott, Nov., pp. 32-44.
Copper Welding in the Chemical Industry—S. J. Mashl, June, pp. 46-53.
Corrosion Resisting Metals and Alloys, Oxy-acetylene Welding—W. B. Miller Dec., pp. 13-17. Discussion, Dec., pp. 58-60.
Corrosion Resisting Metals in Welding—W. B. Miller, July, pp. 98-104.
Cost of Using Welding—R. E. Kinkead, Sept., pp. 19-22. Discussion, Dec., pp 90-92.
Cutting Steel Shapes With Oxy-Acetylene Torch Machines—F. E. Rogers Feb., pp. 44-54.
Developments in 1929 by Committee A. W. S.—Jan., pp. 41-62.
Flux Coated or Covered Electrodes—M. Haramiishi, June, pp. 33-46.
Furniture Welding—De W. Endicott, Jan., pp. 28-33.
Galvanized Iron, How to Weld—A. G. Wikoff, Jan., pp. 23-27.
Galvanized Sheet Welding—H. A. Woofter, H. H. Moss, A. Churchward, Jan pp. 34-35.

Heating, Panel—R. A. Wolff, April, pp. 12-16.
Inspection of Welds and Selection of Welders—C. C. Watson, April, pp. 137-140.
Instruction in Welding—W. F. McKay, May, pp. 75-79.
Jigs, Fixtures and Machine Tools—J. R. Weaver, Feb., pp. 7-18.
Job Shop Welding—H. L. Fetter, June, pp. 59-61.
Machine Design, Application of Arc Welding to—A. M. Candy, March, pp. 66-73.
Machining—Electrically Welded Structure Under Dynamic Stress—M. Stone and J. G. Ritter, March, pp. 15-24.
Machinery Welding—Jigs, Fixtures and Machine Tools—J. R. Weaver, Feb., pp. 7-18.
Magnetic Testing of Butt Welds—T. R. Watts, Sept., pp. 49-68. Discussion, Dec., pp. 132-133.
Non-Ferrous Metals—W. B. Miller, July, pp. 98-104.
Ornamental Iron Welding—De W. Endicott, March, pp. 33-37.
Pipe Welding, Instruction In—W. F. McKay, May, pp. 75-79. Discussion, July, pp. 72-76.
Pipe Welding—River Crossing—W. I. Gaston, April, pp. 52-60.
Pipe Welding Business Progresses—Webster Tallmadge, July, pp. 86-89.
Pipe Welding With Stock Fittings—W. P. Curley, April, pp. 42-51.
Piping—Contractor Prefers A Welded Job—John J. Love, Oct., pp. 121-125.
Piping, Design of Oxy-Acetylene Welded—R. W. Boggs, May, pp. 97-102.
Preheating Practices—A. G. Wikoff, April, pp. 87-103.
Pressure Vessels—Oxy-Acetylene Welding of Rotary Kiln—H. E. Rockefeller, May, pp. 102-109. Discussion, July, pp. 13-15.
Pressure Vessels—Revisions and Addenda to the Boiler Construction Code—June, pp. 53-59.
Pressure Vessels—Strength and Design—L. W. Schuster, May, pp. 18-64.
Pressure Vessels—Welding of—L. H. Burkhart, June, pp. 28-32.
Pressure Vessel Welding—J. C. Hodge, Oct., pp. 93-116. Discussion, Dec., pp. 122-132.
Pressure Vessel Welding—Boilers—Fritz Hofmann, Jan., pp. 7-17.
Pressure Vessel Welding—Proposed Specifications for Fusion Welding of Drums or Shells of Power Boilers—March, pp. 57-61. Discussion, July, pp. 15-41.
Pressure Vessel Welding—Recommended Procedure for Fusion Welding of Pressure Vessels—Feb., pp. 67-76.
Production Welding—De W. Endicott, May, pp. 80-97.
Rail Ends, Welding of Battered—S. E. Tracy, Dec., pp. 17-26.
Railroad Welding—Frank Longo, July, pp. 82-86.
Railroad Welding, Possibility of Further Developments of—G. W. Lieber, Sept., pp. 87-89. Discussion, Dec., pp. 138-141.
Rails—Building Up of Battered Ends—W. H. Kirkbride, Sept., pp. 69-77. Discussion, Dec., pp. 149-151.
Rails—Elimination of Joints in Open Track—J. H. Deppeler, Oct., pp. 88-92. Discussion, Dec., pp. 141-149.
Rails—Lengthening by Butt Welding—L. C. Ryan, Sept., pp. 133-141. Discussion, Dec., pp. 134-138.
Research—Studies of the Iron Arc—C. A. Stay, E. S. Phelps, R. B. George, Nov., pp. 27-31.
Resistance Seam Welding in 1929—W. H. Gibb, March, pp. 32-33.
Resistance Welding—R. T. Gillette, July, pp. 77-82.
Resistance Welding—B. T. Mottinger, Feb., pp. 54-66.
Resistance Welding—Developments in 1929—Jan., pp. 59-60.
Resistance Welding of Steel Joists—Frank Burton, Sept., pp. 78-87. Discussion, Dec., pp. 82-90.
Resistance Welding of Steel Tubing—H. L. Whittemore, J. S. Adelson and E. O. Seaquist, Oct., pp. 17-48.
Ship Welding—The All-Welded Barge Steelweld—E. H. Ewertz, April, pp. 18-21. Discussion, July, pp. 71-72.

Stainless and Corrosion Resistant Steels, Arc Welding of—R. D. Thomas, July, pp. 90-98.
Stainless Steel, Welding and Discussion of—L. W. Hostettler, Dec., pp. 48-58.
Stainless Steel Welding—Steel and Monel Metal—M. E. Olsen, March, pp. 25-32.
Structural Steel—American Methods of Welding Steel Structures—F. P. McKibben, Nov., pp. 7-18.
Structural Steel—Arc Welding for High Structures—G. D. Fish, Nov., pp. 19-24.
Structural Steel—A Rational Method of Welded Connection Design—Andrew Vogel, Nov., pp. 25-27.
Structural Steel—Welding Field Joints on a Fourteen-Story Office Building—J. T. Whitney, Dec., pp. 7-12.
Structural Steel Welding—J. J. Wallace, March, pp. 61-66.
Structural Steel Welding—Addition to Lincoln Plant Arc Welded—C. M. Taylor, Jan., pp. 35-37.
Structural Steel Welding—An Investigation of Welded Connections Between Beams and Columns—E. H. Uhler and C. D. Jensen, April, pp. 61-87.
Structural Steel Welding—Application of Arc Welding to Building Construction—A. M. Candy, March, pp. 66-73.
Structural Steel Welding—Australian Bridge—Jan., pp. 16-17.
Structural Steel Welding—Deck Roofs and Building—A. F. Davis, March, pp. 54-56.
Structural Steel Welding—Design and Fabrication of Oxy-Acetylene Welded Buildings—H. M. Priest, Feb., pp. 33-43.
Structural Steel Welding—Discussion—What the Architect Needs to Know About Welding—July, pp. 41-59.
Structural Steel Welding—Four Years Experience With—A. L. Wilson, March, pp. 38-53.
Structural Steel Welding—Strength Investigations of Welded Beam Connections—C. H. Jennings and A. A. Jakkula, April, pp. 22-41. Discussion, July, pp. 64-70.
Structural Steel Welding—Strength of Welds As Affected by Coatings of Rust, Paint and Oil—G. F. Rogers, Jan., pp. 38-40.
Structural Steel Welding—Strengthening Structures and Bridges by Welding—A. G. Leake, Feb., pp. 18-25.
Structural Steel Welding—Stress Distribution in Side-Welded Joints—W. H. Weiskopf and Milton Male, Sept., pp. 23-48. Discussion, Dec., pp. 68-82.
Structural Steel Welding—Tests Joints Made by Boston Section—Jan., pp. 18-22.
Structural Steel Welding—The First Arc Welded Bridge in Europe—S. Bryla, May, pp. 71-75.
Structural Steel Welding—Transference Tests of H-Section Column Splices—J. H. Edwards, H. L. Whittemore and A. H. Stang, June, pp. 7-28.
Structural Welding—Steel Joists—Frank Burton, Sept., pp. 78-87. Discussion, Dec., pp. 82-90.
Structural Welding—Welded Steel Floor Construction—Lee H. Miller, May, pp. 11-17. Discussion, July, pp. 60-64.
Structural Welding Code Data Applying to the United States—Prepared by Committee on Building Codes, A. W. S.—Jan., pp. 65-74.
Tank Welding—Building an All-Welded Oil Storage Tank—I. S. Dmitrieff, May, pp. 64-70.
Test Results—Effects on Strength of Welds of Coatings of Rust, Paint and Oil—G. F. Rogers, Jan., pp. 38-40.
Testing Steel Sheet for Weldability—De W. Endicott, April, pp. 16-17.
Tests—Examination of Welds by Gamma Rays—R. F. Mehl, G. Doan and C. S. Barrett, Sept., pp. 104-106. Discussion, Dec., pp. 92-96.
Tests—Fatigue and Impact of Welds—C. H. Jennings, Sept., pp. 90-104.
Tests—Fatigue Investigations—G. E. Thornton, Oct., pp. 48-66. Discussion, Dec., pp. 61-66.
Tests—Shear Tests for Welds—Andrew Vogel, Oct., pp. 117-120.

Tests—Stress Distribution—W. H. Weiskopf and Milton Male, Sept., pp. 23-48. Discussion, Dec., pp. 68-82.
Tests—Symposium on Standard Tests for Welds—Proposed Standards; Bend Tests, W. B. Miller; Tensile Tests, J. W. Owens, Oct., pp. 67-88. Discussion, Dec., pp. 96-122.
Tests of H-Section Column Splices—J. H. Edwards, H. L. Whittemore and A. H. Stang, June, pp. 7-28.
Tests of Welded Beam Connections—C. H. Jennings and A. A. Jakkula, April, pp. 26-41.
Tests of Welded Plate Joints—G. R. Exley, Dec., pp. 27-42.
Tests of Welds—Pressure Vessels—L. W. Schuster, May, pp. 18-64.
Test Specimens from Pressure Vessels—L. H. Burkhart, June, pp. 28-32.
Tests Results—Shear Tests Made by Boston Section—Jan., pp. 18-22.
Theory of Stresses in Welds—L. C. Bibber, April, pp. 104-137. Discussion, July, pp. 7-13.
Thermit Welding—Developments in 1929—Jan., pp. 61-62.
Thermit Welding—Elimination of Joints in Open Track—J. H. Deppeler, Oct., pp. 88-92. Discussion, Dec., pp. 141-149.
Tubing, Physical Properties of Resistance Welded Steel—H. L. Whittemore, J. S. Adelson and E. O. Seaquist, Oct., pp. 17-48.
X-Ray Examination of Welds by Diffraction Method—J. T. Norton, Sept., pp. 10-19. Discussion, Dec., pp. 66-68.

AUTHOR'S INDEX, VOL. 9, 1930

ADELSON, J. S.—Physical Properties of Electrically Welded Steel Tubing, Oct., pp. 17-48.
ALEXANDER, P. P.—The Calorimetric Study of the Arc, Feb., pp. 25-32.
AMERICAN BUREAU OF WELDING—Calorimetric Study of the Arc, P. P. Alexander, Feb., pp. 25-32.
Cathode Energy of the Iron Arc—G. E. Doan, March, pp. 10-14.
Examination of Welds by the X-Ray Diffraction Method—J. T. Norton, Sept., pp. 11-22.
Note on the Use of Gamma Rays for Examining Welds—R. F. Mehl, G. Doan and C. S. Barrett, Sept., pp. 104-106.
A Study of Welded Metals Under Fatigue Tests—G. E. Thornton, Oct., pp. 48-66.
Symposium on Standard Tests for Welds; Introduction and Suggested Revision of ABW Bulletin No. 1, Oct., pp. 67-75.
AMERICAN WELDING SOCIETY—Welding Developments in 1929, Jan., pp. 41-62.
Structural Welding Code Data Applying to the United States—Prepared by Committee on Building Codes, A. W. S., Jan., pp. 65-74.
Recommended Procedure of Fusion Welding of Pressure Vessels, Feb., pp. 67-76.
BARRETT, C. S.—Note on the Use of Gamma Rays for Examining Welds, Sept., pp. 104-106.
BIBBER, L. C.—The Theory of Stresses in Welds, April, pp. 104-137.
BOGGS, R. W.—Design for Oxy-Acetylene Welded Piping, May, pp. 97-102.
Training Course for Aircraft Welders, June, pp. 62-76.
BRUEGGEMAN, W. C.—Extracts Report on Strength of Welded Joints in Tubular Members for Aircraft, Sept., pp. 107-132.
BRYLA, S.—The First Arc-Welded Bridge in Europe, May, pp. 71-75.
BURKHART, L. H.—Welding of Super Code Pressure Vessels, June, pp. 28-32.
BURTON, F.—Resistance Welding of Steel Joists, Sept., pp. 78-87.
CANDY, A. M.—Application of Arc Welding to Machine Design and Building Construction, March, pp. 66-73.
CHURCHWARD, A.—Welding of Galvanized Sheets, Jan., p. 35.
CLARK, S. C.—Training Course for Aircraft Welders, June, pp. 62-76.

CURLEY, W. P.—The Economics and Advantages of Pipe Welding with Stock Fittings, April, pp. 42-51.
DAVIS, A. F.—Results of Research in Theory of Arc Welding Machines, Jan., pp. 62-64.
Arc Welded Steel Deck Roofs—Welded Building, March, pp. 54-56.
DEPPELER, J. H.—The Elimination of Joints in Open Track, Oct., pp. 88-92.
DMITRIEFF, I. S.—Building an All-Welded Oil Storage Tank by Arc Welding, May, pp. 64-70.
DOAN, G. E.—Cathode Energy of the Iron Arc, March, pp. 11-14.
Note on the Use of Gamma Rays for Examining Welds, Sept., pp. 104-106.
DUNLAP, W. M.—Electric Arc Welding of Aluminum, Oct., pp. 8-16.
EDWARDS, J. H.—Transverse Tests of H-Section Column Splices, June, pp. 7-28.
ENDICOTT, De W.—Welding in the Metal Furniture Industry, Jan., pp. 28-33.
Large Scale Ornamental Work, March, pp. 33-37.
Testing Steel Sheet for Weldability, April, pp. 16-17.
Production Welding, May, pp. 80-97.
The Progress of Bronze Welding, Nov., pp. 32-44.
EXLEY, G. R.—Classification and Physical Tests for Various Types of Welded Plate Joints, Dec., pp. 27-42.
EWERTZ, E. H.—The All-Welded Barge Steelweld, April, pp. 18-21.
FETTER, H. L.—Job Shop Welding, June, pp. 59-61.
FISH, G. D.—Arc Welding for High Structures, Nov., pp. 19-24.
GASTON, W. I.—Another Oxy-Acetylene Welded River Crossing, April, pp. 52-60.
GEORGE, R. B.—Abstract Thesis "Studies of the Iron Arc," Nov., pp. 27-31.
GIBB, W. H.—Resistance Seam Welding in 1929, March, pp. 32-33.
GILLETTE, R. T.—Resistance Welding, July, pp. 77-82.
HARAMIISHI, M.—Influence of Flux Coated or Covered on the Metal Arc Electrode, June, pp. 33-46.
HODGE, J. C.—The Application of Fusion Welding to Pressure Vessels, Oct., pp. 93-116.
HOFMANN, F.—Welding on High Pressure Boilers, Jan., pp. 7-16.
JAKKULA, A. A.—Strength Investigations on Welded Beam Connections, April, pp. 22-41.
JENNINGS, C. H.—Strength Investigations on Welded Beam Connections, April, pp. 22-41.
Fatigue and Impact Tests for Welds, Sept., pp. 90-104.
JENSEN, C. D.—An Investigation of Welded Connections Between Beams and Columns, April, pp. 61-87.
KINKEAD, R. E.—Cost of Using Welding, Sept., pp. 19-22.
KIRKBRIDE, W. H.—Building Up Battered Ends of Rails, Sept., pp. 69-77.
LEAKE, A. G.—Strengthening Bridges and Structures by Welding, Feb., pp. 18-25.
LIEBER, G. W.—The Possibility and Further Developments of Railway Welding, Sept., pp. 87-89.
LONGO, F.—Fusion Welding As Applied to Railroad Work, July, pp. 82-86.
LOVE, J. J.—Why the Piping Contractor Prefers a Welded Job, Oct., pp. 121-125.
MALE, M.—Stress Distribution in Side-Welded Joints, Sept., pp. 43-48.
MASHL, S. J.—Copper Welding in the Chemical Industry, June, pp. 46-53.
McKAY, W. F.—The Needs of the Metropolitan District for Instruction in Welding, May, pp. 75-79.
McKIBBEN, F. P.—American Methods of Welding Steel Structures, Nov., pp. 7-18.
MEHL, R. F.—Note on the Use of Gamma Rays for Examining Welds, Sept., pp. 104-106.
MILLER, L. H.—Welded Steel Floor Construction, May, pp. 11-17.
MILLER, W. B.—Metals and Welding, July, pp. 98-104.
Bend Tests, Oct., pp. 75-78.

Oxy-Acetylene Welding of Corrosion Resisting Metals and Alloys, Dec., pp. 13-17.
MOSS, H. H.—Welding of Galvanized Sheet, Jan., pp. 34-35.
MOTTINGER, B. T.—Resistance Welding, Feb., pp. 54-66.
NORTON, J. T.—The Examination of Welds by the X-Ray Diffraction Method, Sept., pp. 11-19.
OLSEN, M. E.—Welding Stainless Steel and Monel Metal, March, pp. 25-32.
OWENS, J. W.—Tensile Tests for Welds, Oct., pp. 79-88.
PHELPS, E. S.—Abstract Thesis "Studies of the Iron Arc," Nov., pp. 27-31.
PRIEST, H. M.—Design and Fabrication of Oxy-Acetylene Welded Buildings, Feb., pp. 33-43.
RITTER, J. G.—Electrically Welded Structure, March, pp. 15-24.
ROCKEFELLER, H. E.—The Application of Oxy-Acetylene Welding to Rotary Kiln Construction, May, pp. 102-109.
ROGERS, F. E.—Cutting Steel Shapes with Oxy-Acetylene Torch Machines, Feb., pp. 44-54.
ROGERS, G. F.—An Experimental Investigation of the Strength of Welds as Affected by Coatings of Rust, Paint and Oil Upon the Welded Surface, Jan., pp. 38-40.
RYAN, L. C.—Lengthening Rails by Butt Welds, Sept., pp. 133-141.
SCHUSTER, L. W.—The Strength and Design of Fusion Welds for Unfired Pressure Vessels, May, pp. 18-64.
SEAQUIST, E. O.—Physical Properties of Electrically Welded Steel Tubing, Oct., pp. 17-48.
SLOCUM, A. W.—Discussion Paper of "Material Transference in the Welding Arc," March, pp. 73-74.
STANG, A. H.—Transverse Tests of H-Section Column Splices, June, pp. 7-28.
STAY, C. A.—Abstract Thesis "Studies of the Iron Arc," Nov., pp. 27-31.
STONE, M.—Electrically Welded Structure, March, pp. 15-24.
TALLMADGE, W.—Pipe Welding Business Progresses, July, pp. 86-89.
TAYLOR, C. M.—Addition to Lincoln Plant Entirely Arc Welded, Jan., pp. 35-37.
THOMAS, R. D.—Arc Welding of Stainless and Corrosion Resistant Steels, July, pp. 90-98.
THORNTON, G. E.—A Study of Welded Metals Under Fatigue Tests, Oct., pp. 48-66.
